Anything worthwhile is worth the effort and hard work put into it. So is your life. Your life is measured by the hard work, the effort, the fun and the heartaches. After all these things are passed, you have only memories. We the Mustang Staff present to you your memories of 1970-71.

# DEDICATION

Mrs. Margaret Durben

When you have learned how to face life and to laugh at its hardships, then you have learned a lot. Anyone who has been in one of Mrs. Durbens' English classes should have learned this very thing. The ability to be open and free makes her class one in a million.

Due to these and innumerable other reasons, we proudly dedicate our 1970-71 annual to Mrs. Margaret Durben.

Well, Grandma, the  
year is almost gone,  
and the year didn't  
get to show everyone  
what a good Grandma  
you were - Maybe next  
year - if things work  
out like I plan.

I did enjoy the  
trip to Lubbock, the  
lunch, and all.

Look forward to  
next year - I am.

Mrs. D.

# IN MEMORY

J. D. Stevens was our friend. His death was a great loss to all students who ever rode his bus and to the ones who never knew him. He served our school as bus driver for 15 years. The football trips, on which he drove the pep club, will be remembered by all the girls. Every Friday afternoon before we could leave we had to do a yell so J. D. could be sure we were really ready to go.

We wish to preserve some of his memory in our annual. We only regret that we can not do more.

# PRINCIPALS

Congratulations to our student body at Bovina High School. You have had many good accomplishments this year. Our classrooms and halls have been orderly, our student council was elected District Vice-President, our athletic teams have been competitive in district, our students have begun to study drugs and their effects on young people, and I feel confident that our students will represent us well in our spring meet contests.

To those students leaving and entering our high school remember to be persistent in what you want to achieve, stubbornly continue your course in life in spite of opposing influences.

Sincerely,

*Garv W. Cox*

We are closing another year of "formal education." To continue to live is to continue to learn. Much of our learning is planned and much of it is unplanned—whether we be animal, insect, bird, fish, or plant. It is our hope that through our joint efforts in the formal education system, we can read better, think more logically, analyze better, remember better. If we can do this, then we can profit from our past, and we can live in the present much fuller, and plan our future—better.

Sincerely,

*Jim Noyes*
